# WHAT IS SELF-REG?

Shanker Self-Reg® is a process for enhancing self-regulation by understanding and dealing with stress. It is a valuable and accessible framework for children, youth, and adults as well as people who care about and work with them. Educators, mental health professionals, parents, leaders and businesses from across Canada and around the world are using Self-Reg to address behavioural, emotional and social problems and improve outcomes for all.

The practice of Shanker Self-Reg® helps people understand and respond to others (and themselves) by considering self-regulation across five interrelated domains—Biological, Emotion, Cognitive, Social and Prosocial—using The Shanker Method®:

1. **REFRAME** the behavior.
2. **RECOGNIZE** the stressors (across the five domains).
3. **REDUCE** the stress.
4. **REFLECT**: enhance stress awareness.
5. **RESTORE**: develop personalized strategies to promote resilience and restoration.

**The MEHRIT Centre** is Dr. Stuart Shanker's organization dedicated to understanding how we all respond to stress in the same way: we thrive when it is positive, we struggle when it is excessive. We offer Self-Reg Learning through a variety of online programs & courses, events, presentations, blogs and resources. Learn more at [self-reg.ca](https://self-reg.ca).

# EARLY CHILDHOOD DEVELOPMENT PROGRAM

## LEVEL 1 CERTIFICATE PROGRAM

\$745 Full Program

Dr. Stuart Shanker says ECEs (early childhood educators) have the most important job in the world. Therefore, one of the best ways to invest in our children's future is to invest in our ECEs. The Self-Reg in Early Childhood Development Program is a great way to do just that.

Our 3-course online program explores child development from birth to age 10. It gives learners a new and more complete understanding of the factors that affect early development, by looking at development and learning through the lens of Self-Reg. Self-Reg is Dr. Stuart Shanker's framework for understanding stress and managing energy and tension, in order to support self-regulation.

As we know, young children are already capable. Our job as adults is to create the relationships and experiences that enable all children to explore and grow their capabilities. Supporting their self-regulation—understanding and addressing children's stress (and our own)—is the key.

The program is relevant for all professionals and parents who care for and work with young children, including children with special needs and challenges. Over 500 passionate learners have completed this course: ECEs, educational assistants, K-3 teachers, researchers, principals, speech language pathologists, psychologists and behaviour specialists. Join us and discover the core underpinnings of Self-Reg. Learn new ways to understand and respond to challenges in behaviour, temperament, learning and much more.

# LEADERSHIP FOR SELF-REG SCHOOLS PROGRAM

## LEVEL 1 CERTIFICATE PROGRAM

\$850 Full Program

Every educational leader has always had the same goal: a school in which everyone flourishes – not just academically, but socially, psychologically and morally. It's the HOW that has always proved challenging, and now more so than ever. School leaders today are confronted with behavioural, emotional, and cognitive challenges far in excess of what their predecessors had to contend with. It is the HOW that requires, not just inspirational rhetoric and fortitude, but a deep understanding of why these problems are occurring and how they can be met and mastered. This 12-module program has been developed specifically for school leaders: with the knowledge and guidelines needed for their school to become a centre of deep learning, in all its many facets.

This program is also applicable to any leaders be that in schools, HR, business or elsewhere.

## PROGRAM OUTLINE

### COURSE 1:

1. Leadership for Self-Reg Schools – Why it Matters
2. Triune Brain and Interbrain: Self-Reg Schools Foundations
3. Thayer Matrix for School Leaders
4. Hierarchy of Stress at a Whole School Level

### COURSE 2:

5. The Self-Reg Framework: 5 Practices in Schools
6. The Seeds Journey
7. The Sunrise Journey
8. The Quilt Journey

### COURSE 3:

9. All Means All - Anxiety
10. All Means All - Autism
11. All Means All - ADHD
12. The Haven Journey

# REFRAMED: MASTERS IN SELF-REG REFRAMING PROGRAM

**LEVEL 2 CERTIFICATE PROGRAM** (requires prior completion of a Level 1 Certificate Program)  
\$1,695 Full Program

Stuart Shanker's new book, *Reframed*, the culmination of his career's work, marries his lifelong vision of a truly Just Society with his voluminous knowledge of the neuroscience of stress and human development. In our newest, and most advanced, online program, *Reframed: Masters of Self-Reg Reframing*, Dr. Shanker will take learners on a deep and exciting dive that will enable them to not only deepen their Self-Reg knowledge and practice but also show them how they can become builders of a Just Society.

The Reframed Course has been designed to give learners a behind-the-scenes look, as it were, at the thinking that went into the writing of this book. Stuart goes over the most important ideas in each chapter and the background material that shaped his thinking on the subject. The learner is taken on a guided tour of the major recent advances in neuroscience, physiology, psychology and clinical practice that serve as the foundation of Self-Reg. Maybe most important of all is to see how Stuart views Self-Reg as the basis for the philosophical vision of a Just Society that has governed his thinking from the very start.

*Reframed* will explore the content of *REFRAMED* in 13x 2-week modules, one for each of the book's chapters.

Dr. Shanker will provide a detailed introduction to each module that will lead learners into reflective discussions as well as live small groups in the latter modules, which will be recorded and shared within each cohort of learners.

## PROGRAM OUTLINE

1. The Science of Self-Reg
2. Reframing Human Nature
3. Reframing Development
4. The Age of Reason(s)
5. Blue Brain vs. Red Brain
6. Reframing IQ
7. The Joy and Pain of Math
8. No Child Left Behind
9. Becoming Free: The Teen Years
10. Reframing Virtue
11. Creating a Just Society

# LIVING, LEARNING & LINKING PROGRAM

**LEVEL 2 CERTIFICATE PROGRAM** (requires prior completion of a Level 1 Certificate Program)  
\$1,695 Full Program or \$645 Per Course

Individual module webinars are available for 72hr rental available with a membership on our Co-Reg Community [here](#). Individual module webinar rental does not count towards a program certificate.

Build on your understandings of Self-Reg from one of our Level 1 Self-Reg Certificates with the Living, Learning & Linking Certificate Program, a self-paced 30 module program that offers you a range of opportunities to go deeper into the science, the practice, and the leadership of Self-Reg with Dr. Shanker, the TMC Team & Self-Reg Community.

This unique program is comprised of 30 stand-alone modules of learning, each taking approximately 3-5 hours to complete through a combination of videos, readings, and pre- and post-module tasks. After registering, you will have 1 year to access all the course content and materials and to complete the full program.

Although self-paced, this program has a dedicated facilitator, who will respond to quiz content in the Living and Learning modules, discussions in the Linking modules and guide you through the development of your very own module as your final program project.

### SELF-REG 101 FOR ALL

This new entry in our Professional Learning Series offers a focused introduction to Self-Reg for any group looking to learn more about understanding and managing energy, tension and stress: health care, mental health, government, law enforcement or corporate teams. Susan Hopkins will guide you through 5 Domains (Biological, Emotion, Cognitive, Social & Prosocial) and the 5 Steps (Reframe, Recognize, Reduce, Reflect & Respond) of the Shanker Self-Reg® Framework. This is a fantastic Self-Reg Introductory Course.

### FRAMEWORK 101

This six-session online course is a great way to introduce Self-Reg to your team. Dive into the 5 Domains of Self-Reg (Biological, Emotion, Cognitive, Social & Prosocial) and some Self-Reg basics with Dr. Susan Hopkins. The design is intended for learning over six separate sessions to allow time for reflective practice in between each module.

## SELF-REG PARENTING COURSE

\$149 or Group Purchasing Options from \$199 - \$1,499

Join Stuart Shanker, Susan Hopkins, Jean Clinton & Vicki Parnell in our ten-module, video-based Self-Reg Parenting Course, designed to help parents apply Shanker Self-Reg® in their day-to-day parenting. Register at any time you like to take the content at your own convenience over a 6-month period.

The Self-Reg Parenting Program, delivered through TMC's e-School, explains the principles of Shanker Self-Reg®, and practical ways parents can use Self-Reg to:

- gain a whole new understanding of their child's behaviour and how to respond to it.
- learn the impacts of excess stress on children's behaviour and mood.
- come to grips with their own stress and how it affects their parenting.
- identify and address the subtle and hidden stressors that affect children in ways that parents might not realize.
- find out how other parents use Self-Reg strategies to deal with real-life parenting situations and problems.

## FEELING STRESSED: A SELF-REG COURSE FOR TEENS

\$50 (equity pricing available)

Group Purchasing Options from \$250 - \$600

The teenage years are a crucial stage in human development. Not only are young people making the all-important transition between childhood and adulthood, they are becoming more active agents in shaping their own lives. How do we support them at this key point in their development, when so many teens are struggling with anxiety, depression, self-doubt and emerging addictions? How do we help teens recognize the influences on their thinking, mood, behaviour and choices: influences they are often unaware of. Dr. Stuart Shanker says the key is helping adolescents understand stress, how they are affected by excess stress and what they can do about it.

Feeling Stressed is a new TMC course that will help teenagers truly understand stress and how they are influenced by it, while giving them the tools to respond to, and even thrive in the face of the stresses in their lives. Learners will be guided through a 15 module video and activity-based, online program that shows teens how Self-Reg can help them:

- reframe their own behaviour and emotions so they can understand when their actions and moods are caused by excess stress
- recognize and reduce stress, including hidden stressors and that young people don't recognize as sources of excess stress that create inner tension and drain their energy
- discover what true calm really feels like and how to return to a calm state after stressful situations
- restore their zest for life by learning how to restore the brain/body energy that is burned in dealing with excess stress
